## ARCTIC TRUCKS - OVER THREE DECADES OF 'EXPLORING WITHOUT LIMITS'

Arctic Trucks® was founded in 1990 as a specialist division of Toyota in Iceland - long known as 'The Land of Fire and Ice' due to its rugged and beautiful landscape of extremes; from glacial to volcanic and everything in between. Iceland is truly a world-class proving ground.

Over more than three decades Arctic Trucks® have forged an unparalleled level of expertise in re-engineering and converting four-wheel drive vehicles, setting a benchmark for quality, durability and reliability in the most remote and inhospitable environments on earth.

As the world's leading polar vehicle operator, Arctic Trucks® have achieved multiple world records and firsts. These include the first vehicles to reach the Magnetic North Pole, fastest overland journey to the South Pole, longest distance expedition in Polar history, first expedition to drive through all 7 continents, first Antarctic crossing by passenger vehicle and the first wheeled vehicle in history to travel from Magnetic North to South Pole (successfully completed in December 2023).

Drawing from this unrivalled expedition experience and developed to global OEM standards, Arctic Trucks® vehicles are equipped to deliver a finely tuned balance of confidence inspiring handling and superior comfort, control and mobility, both on and off-road; resulting in exciting, daily-drivable vehicles which are truly 'cool and capable' over all terrains.

Staying true to its heritage of extremes, today Arctic Trucks® is active in multiple global markets, from the polar regions to the deserts of Africa and the Middle East - becoming world-renowned as the benchmark for extreme off-road vehicles in any environment.

Whether for leisure or professional purposes, Arctic Trucks® enable owners and operators to safely, successfully and efficiently 'Explore Without Limits', whatever the challenge.

## WHY ARCTIC TRUCKS®?

Why owners and operators choose Arctic Trucks®...

### Benefits for Owners & Operators

- Extreme and authentic reputation of the Arctic Trucks® brand
- Professionally designed and developed from deep operational experience
- Individually built by experienced technicians in government & Toyota approved facilities
- Enhanced styling and commanding road presence
- Perfectly daily-drivable, with confidence inspiring on-road handling
- Increased ground clearance, articulation, approach and departure angles
- Proven superior comfort, control and mobility over all terrains
- Elevated driving position = increased visibility in normal traffic
- Greater track, tyre width & diameter for improved off-road performance
- Broader range and flexibility to utilise low tyre pressures
- Softer and faster ride over rough surfaces
- Superior traction, flotation and efficiency over soft ground
- Lighter 'footprint' over delicate terrains
- Peace of mind, through full alignment with core Toyota new vehicle warranties
- Fully type-approved - retains full commercial vehicle status (with associated benefits)
- No compromise to payload or towing capacity
- Available and serviceable through all Toyota dealerships

As a Toyota Authorised Converter, Arctic Trucks® offer authentic and unparalleled expedition-level presence and performance, fully aligned with Toyota's legendary quality, durability and reliability. Whether you're looking for a long-distance adventure rig or a reliable commercial vehicle for challenging work in adverse terrains or conditions, the Hilux AT35 delivers, anywhere, anytime.

## TOYOTA HILUX ARCTIC TRUCKS® AT35

The legendary Toyota Hilux has long been the backbone of vehicle-based operations in the harshest and most challenging environments on earth. Developed by the international team of world-leading off-road mobility specialists at Arctic Trucks®, the Toyota Hilux AT35 is a professionally re-engineered high mobility vehicle, officially available as a fully type-approved special version from all UK Toyota dealerships and backed by full Toyota core warranty alignment.

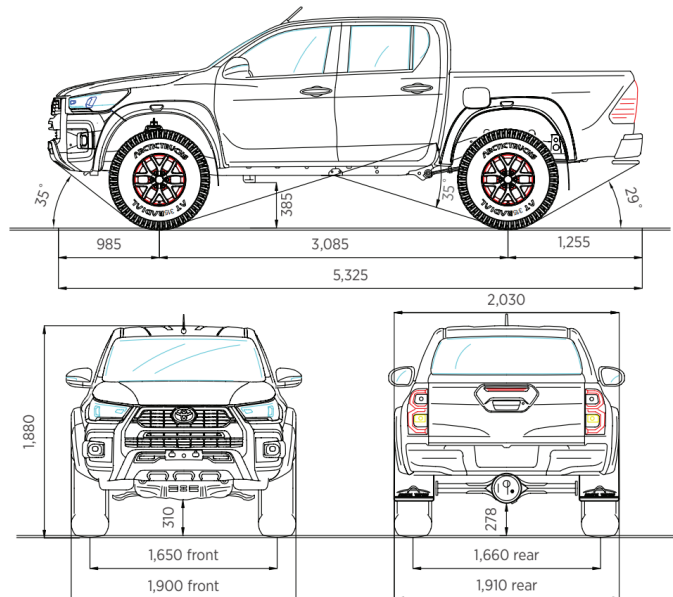

Born from 30+ years of unrivalled expedition experience, each Hilux AT35 is individually crafted by experienced Arctic Trucks® technicians to incorporate significant enhancements to the body, bodywork, frame, drivetrain, suspension, wheels, tyres and more.

### WEIGHTS & DIMENSIONS\*

Gross Vehicle Weight	3,370 kg
Mass in Running Order	2,325 kg
Payload	1,050 kg
Towing Capacity (Braked)	3,500 kg
Towing Capacity (Unbraked)	750 kg

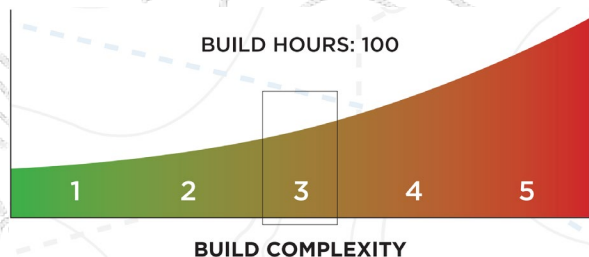

Building on the renowned quality, durability and reliability of the Hilux platform, the 'cool and capable' Hilux AT35 is developed to handle challenging landscapes with ease, while offering outstanding presence and authentic performance everywhere, whether on or off-road.

Combined with extensive adjustment, strengthening and reprofiling of the chassis, body and bodywork, and re-gearing of the differentials, the specially developed Arctic Trucks® Bilstein performance suspension system and enlarged BFGoodrich All-Terrain wheel and tyre package deliver a finely tuned balance of sharp, stable and confidence-inspiring on-road handling and dramatically enhanced ground clearance, comfort, control and mobility over all terrains.

The Iconic Arctic Trucks® widened flares create coverage and protection; amplifying the vehicle's rugged stance. This is complemented by premium AT badging and detailing throughout, along with durable extended Arctic Trucks® side steps, mud flaps, interior mats and a versatile 2" rear receiver hitch, enabling quick, easy fitment of tow balls, winches, steps, gear carriers and much more.

All elements and features of the Hilux AT35 design and build process are developed and undertaken exclusively by Arctic Trucks® inside their Toyota-approved facilities to ensure showroom quality, adherence to all relevant vehicle type approvals and full warranty alignment.

**Base Vehicle:** 2024> Hilux Invincible X, Double Cab, Auto  
**Turnaround Time (Pre-Booked Build Slot):** 2 weeks
