CONFIDENCE AT EVERY TURN

Stay focused and safe throughout the city. Aygo X is equipped with a wealth of enhanced safety features to ensure you're always confident on the roads. Toyota Safety Sense* with driving and parking-assistance technologies keep you constantly in check. Whether on the motorway, in the city or parking – you're in safe hands with Aygo X.

* Standard on all grades.

PRE-COLLISION SYSTEM (PCS)

When the possibility of a collision is detected, PCS alerts the driver with audio and visual warnings and brake assistance is activated. If the driver fails to brake in time, the brakes automatically engage to reduce the likelihood and severity of an impact. In addition, early detection of pedestrians (day or night) and cyclists (day only) is also possible. Intersection Turn Assist and Emergency Steering Assist, provide further driver support in the daytime by delivering greater safety when turning at junctions and enhanced steering assistance and stability when making evasive manoeuvres.

LANE TRACE ASSIST

Designed to make motorway driving safer. It keeps you centred in your lane and if you start to drift, steering assist will gently steer your car to correct its course.

ADAPTIVE CRUISE CONTROL

Keeps you at a minimum pre-set distance from the vehicle in front. If this distance falls, the system reduces your speed and eventually the brakes will be applied and brake lights activated. Aygo X is equipped with Road Sign Assist and can also recognise speed limits on your driving route and suggest any necessary adjustments.
