Wherever your journey, Hilux will take you there. With a choice of two powerful, efficient engines and the ability to tow up to 3.5 tonnes, it has the capacity to move mountains. A new 2.8 litre diesel engine, producing 204 DIN hp and up to 500 Nm of torque, joins the line-up. Capable of 0–62 mph in just 10.0 seconds, it's the most powerful Hilux ever, and with power that's delivered low down the rev range, you have the torque just when you need it. Coupled with redesigned suspension and the availability of Trailer Sway Control, you'll appreciate how Hilux delivers superb towing ability together with new levels of refinement.

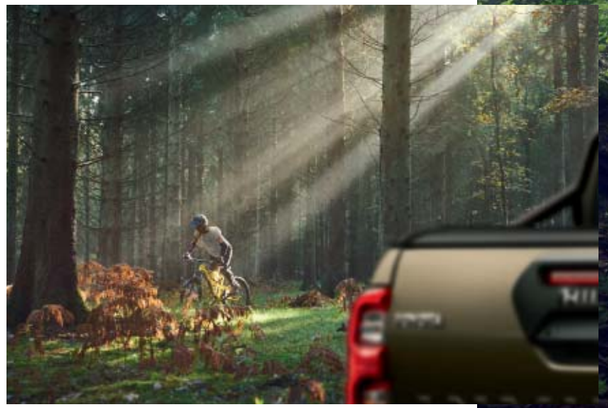

MORE POWER, MORE TORQUE. MORE FUN

Did you know... British TV show Top Gear tried to 'destroy' a 1988 Hilux with 300,000 km on the clock. Despite washing it out to sea, hitting it with a wrecking ball, dropping a caravan on top of it and setting it alight, after a short repair with basic tools it could still be driven away.

With a bold new look Hilux stands out from the crowd. Its muscular stance conveys a sense of power, whilst the striking front and rear bumpers and tough body mouldings protect its rugged bodywork from damage. Check out the stunning new light designs and the range of robust wheel designs that further enhance its tough good looks. Want to take it to the max? Look no further than the Invincible X model, with a unique and prominent design... it's the ultimate statement of Hilux power and style.

BUILT FOR GREATNESS. DESIGNED FOR PLEASURE

Did you know... Owning a 1985, jet black, 4x4 SR5 Xtracab Hilux was the dream of Marty McFly, played by Michael J Fox, in the box-office hit Back to the Future. But before he gets a chance to drive the truck, McFly is propelled back to 1955 where he meets his teenage parents-to-be.

GREAT DESIGN IN ANY TERRAIN

TOUGH, DURABLE, RELIABLE? UNQUESTIONABLE

Because Hilux is engineered and tested to operate in the world's most extreme environments, you can rely on the legendary quality, durability and reliability that's exists in every new vehicle. With a super strong body frame, a wading depth of up to 700 mm and exceptional wheel articulation even the toughest terrain can be tackled with confidence. Rigorous testing, and unique component design, honed over half a century, has resulted in a unique vehicle. Designed, engineered and built like no other pick-up.

TAKE YOUR PASSIONS TO NEW TERRITORIES AND BEYOND

Did you know... The Killin Mountain Rescue Team in Scotland depend on Hilux 4x4 pick-ups to transport rescue teams and equipment into the most dangerous and remote areas of the mountains. When lives are at stake, the go-anywhere capabilities of Hilux become lifesavers.

There's good reason to feel confident in a New Hilux. Hill start Assist Control (HAC) and Active Traction Control (A-TRC) make the smoothest start simple, whilst its capacity to carry and tow means nothing gets left behind. So, whether you're climbing or descending the piste (with Downhill Assist Control (DAC)) when you're in a new Hilux you can be sure you are in the very safest of hands*.

* Up to 3.5 tonnes, 4WD only.

NO SKI LIFT? NO PROBLEM

YOUR SPACE
YOUR WORLD

Tough on the outside, comfortable on the inside, the interior of the new Hilux takes you to new levels of refinement and style. Durable materials and striking finishes look as good as they feel, whilst the JBL® Premium Sound System with Harman CLARi-Fi technology, delivers superb audio quality. Invincible X models elevate levels still further with dual tone perforated leather seats delivering unrelenting comfort and unique ambient lighting that bathes the cabin with soft blue light. As tough as it is comfortable, Hilux takes care of you, so you can take care of business.

WHATEVER YOUR MUSIC TASTES,
LET JBL® AUDIO DELIVER THE SOUND

MISSION CONTROL?
LIFE MADE EASY

Being tough doesn't mean you can't be clever, which is why Hilux offers you a range of innovative technologies that are designed to make life easier. The 8" Toyota Touch® 2 screen features a host of multimedia features that puts you in control. There's Smartphone Integration via Apple CarPlay™ and Android Auto™, you can also stay connected using the MyT services designed to make driving safer and more fun. The new full colour combimeter displays everything from tyre angles to parking sensor information, all accessible via handy steering wheel controls. There's even a rear-view camera so you can avoid any nasty surprises when reversing.

* Specification dependent on model.

INTUITIVE TECHNOLOGY DESIGNED AROUND YOU

Did you know... An expedition to the most northern spot of Russia is a trip that tests the strength of any team. But with the help of two Toyota Hilux, a team succeeded in covering more than 1,000 km of extreme driving conditions through polar nights.

PEACE OF MIND? COMES AS STANDARD

Toyota Safety Sense includes advanced active safety systems for an even safer and more relaxed drive. At its heart are active technologies that can assist the driver.

Lane Departure Alert helps to keep you on course by providing an audio and visual warning if the vehicle starts to drift from its lane marking without use of the turning signal. Steering Control applies corrective force in the event of unintentional lane departure.

Intelligent Cruise Control, which includes Adaptive Cruise Control combined with Road Sign Assist, automatically keeps the car at a pre-selected speed and warns the driver if the speed limit changes.

Trailer Sway Control (TSC), suppresses any sway caused by wind, bumpy roads or steering etc. whenever you are towing. With sensors detecting yaw, acceleration and steering, TSC uses deceleration control and yaw moment to limit sway.

Because your safety is our priority, Hilux is fitted with an advanced safety system, Toyota Safety Sense. Using both camera and laser technology Toyota Safety Sense combines a range of active technologies including Pre-Collision System with Pedestrian and Cyclist Detection, Intelligent Adaptive Cruise Control and Lane Departure Alert with Brake Induced Steering, whilst Trailer Sway Control always keeps loads in line and under control. With the reassurance of 7 airbags, a strong body-on-frame construction and the extensive use of high tensile steel throughout, the new Hilux keeps you protected whatever the adventure.

YOU CAN'T PREDICT THE UNEXPECTED, BUT YOU CAN PREPARE

Did you know... A windmill mechanic in Australia has clocked up more than half a million kilometres in his 1983-model Hilux. His 'territory' is more than 100,000 square kilometres of rural Queensland and he estimates there are seven to eight thousand windmills to service.

ADDED ATTITUDE

BED PROTECTION

The high-density polyethylene liner covers both the deck bed and side panels and is precision-moulded for maximum load space. Available as an under-rail application, additional rail caps can be added to convert it to an over-rail solution. Also available are the aluminium and spray-on bed liners, which offer an even tougher protective layer for the deck.

1. Plastic Bed Liner **2. Spray-On Bed Liner** **3. Aluminium Bed Liner**

BED UTILITY

The utility boxes are practical, weather-proof and lockable storage areas, fitted to the front or the sides of the deck. The rear box has a maximum recommended load capacity of 100 kg, while the sides can hold 30 kg each. The side boxes can also be fitted in conjunction with a sliding deck floor. The floor slides along aluminium rails to help move heavy loads up to 300 kg into the deck space. A textured anti-slip surface and hooks keep loads in place.

1. Sliding Deck Floor **2. Rear Deck Utility Box**
3. Twin Side Utility Boxes

OWNING YOUR NEW HILUX

Servicing your Toyota
Toyota Service Pricing means you will be sure to know the cost of your service up front. Expertly trained technicians using only genuine Toyota parts will carry out your service at one of over 200 Authorised Toyota Service Centres. The technicians will advise you on the correct service for your vehicle based on the vehicle's age, mileage and service history.

For more information visit toyota.co.uk/owners/servicing-and-aftercare/service-mot-maintenance

Service Plans
Inflation-proof pricing with a monthly or one-off payment plan means one less thing to worry about. With Toyota Service Plans the price you're quoted is guaranteed for the duration of your plan. The service, parts and labour are all paid for either in monthly instalments or as a one-off payment at the beginning of your plan.

Toyota Relax
Up to 10 Years (100,000 miles) Toyota warranty
Every new Toyota is eligible to be covered by up to 10 years' manufacturer warranty through Toyota Relax. This is provided through an initial 3 years manufacturer warranty that can be extended with regular servicing at a Toyota dealer. 12 months warranty is included with every Toyota Service, up to 100,000 miles or 10 years, whichever comes first, giving you a chance to relax in the knowledge that you and your vehicle are in safe hands. Terms and conditions apply.

For full details, please ask your official Toyota Centre or visit toyota.co.uk/relax

Corrosion Cover
The 12-year unlimited mileage cover protects against rust perforation affecting sheet metal body panels as a result of a manufacturing fault. This warranty can also be transferred to any future owner throughout the 12-year period.

Rust and Paint Cover
The 3-year unlimited mileage cover protects against defects and surface rust as a result of a manufacturing fault.

Toyota Business Centre
Our Toyota Business Centre network promise you same-day access to a business manager or dedicated sales executive. The Dakar Rally is the most extreme endurance rally on earth. It is the ultimate test to make better cars, which is why Toyota have competed for the past 40 years. It pushes quality, durability and reliability to its limits. The terrain is extreme, the speeds unbelievable. In these conditions, trust is key. One of the greatest Formula One drivers in the history of the sport, two-time World Formula One Champion Fernando Alonso joined the 2020 Dakar Rally team. Alonso competed alongside Nasser Al-Attiyah, who proved the incredible strength and pace of the legendary Hilux by winning the 2019 Dakar Rally.

Quoted mpg and CO_2: Figures are provided for comparability purposes; only compare fuel consumption and CO_2 figures with other cars tested to the same technical procedures. These figures may not reflect real-life driving results. Fuel consumption and CO_2 produced varies significantly depending on a number of factors, including the accessories fitted (post-registration), driving style, conditions, speed and vehicle load.

All models and grades are certified according to the World Harmonised Light Vehicle Test Procedure (WLTP). All mpg and CO_2 figures quoted are full WLTP figures.

The official CO_2 figures for vehicles changed as from 6 April 2020, due to a change in the official method of calculation. CO_2 figures are used in the calculation of Vehicle Excise Duty (car tax) for new cars during their first year of registration. As a result, all CO_2 figures, car tax and 'on the road' prices for new vehicles, which were provided or displayed prior to 6 April 2020, may now have changed for vehicles which were not registered before that date. These dates may change, please visit www.vehicle-certification-agency.gov.uk/fcb/wltp.asp for the latest information.

Please contact your local Toyota Centre for further information.
