

RAV4 PLUG-IN HYBRID

HYBRID FREEDOM

RICH SUV HERITAGE, OUTSTANDING CAPABILITY

The RAV4 Plug-in Hybrid combines our most powerful Hybrid technology yet with outstanding EV capability to power you further, cleaner. Underneath its sophisticated design, the dual energy delivered by our fourth-generation Hybrid technology and high-capacity, lithium-ion battery allows you to enjoy instant acceleration.

CLEANER POWER

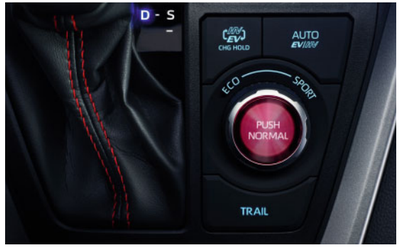

INSTANT POWER, UNRIVALLED EFFICIENCY

Powerful, dynamic and sure-footed, the RAV4 Plug-in Hybrid delivers a performance that's in a class of its own. Equipped with a 2.5 litre Petrol Hybrid powertrain with intelligent all-wheel-drive system (AWD-i*), it sprints from 0–62 mph in just 6.0 seconds, thanks to its impressive traction and formidable 306 DIN hp output.

CO_2 emissions (22 g/km) and fuel consumption (282.4 mpg) show the RAV4 Plug-in Hybrid has the efficiency to match its performance. An 18.1 kWh lithium ion battery means you can travel for more than 46 miles[§] on pure EV power, while the car's 6.6 kW on-board charger provides a full battery charge in 2.5 hours.

Image not UK Specification.

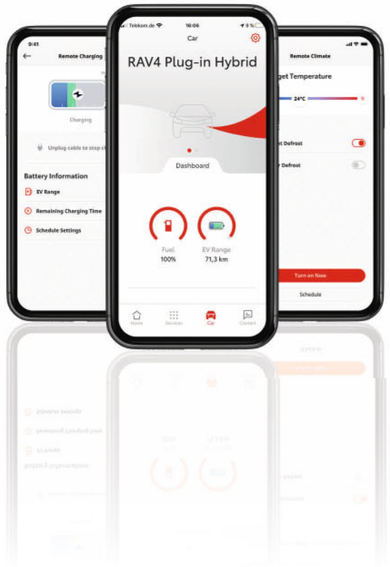

Your way to true EV
Switch seamlessly from Hybrid to pure EV through the four-mode drive selector. The default EV mode allows the RAV4 Plug-in Hybrid to travel more than 46 miles[§] on electric power alone resulting in zero emissions at the tailpipe. When the battery is empty, simply let the RAV4's efficient Hybrid system power you on to your destination.

Connectivity
Alongside Apple CarPlay and Android Auto™ to handle music, calls and more, the MyToyota smartphone app allows you to check battery level, programme recharging times and even pre-cool or pre-heat the RAV4's cabin.

Apple CarPlay is a trademark of Apple Inc.

Interior
From a Head Up Display* to wireless mobile phone charging* and a 220V boot power outlet, the RAV4's refined interior delivers uncompromising comfort and convenience.

INNER STYLE

REFINED AND CONNECTED, THE IDEAL SPACE TO RECHARGE

The RAV4 Plug-in Hybrid's stylish cabin provides the ideal setting for quiet, effortless performance. Sporty seats* and a large panoramic roof* guarantee that journeys in the spacious, refined interior are airy and comfortable, while a 500* litre boot (rear seats in place, loaded to tonneau cover, including space beneath the deck board) provides flexible loadspace with minimal battery intrusion.

For seamless access to the car's entertainment and connectivity, the intuitive dashboard boasts a 10.5" touchscreen with our latest multimedia system and smartphone integration. Features such as cabin pre-conditioning and real-time navigation are delivered by a suite of Connected Services, while a wide range of advanced safety technologies helps to protect everyone, inside and out the car.

Safety
The RAV4 Plug-in Hybrid does even more to keep you and others around you safer. Its advanced Toyota Safety Sense technologies are now more intelligent, to help you drive with confidence and peace of mind.

While every effort is made to reproduce accurate information, we reserve the right to change specifications, equipment and availability without prior notice. This brochure cannot be regarded as infallible (some of the vehicles shown may not be to exact UK specification), and as such does not constitute an offer for sale of any particular vehicle or specification. For the latest specification and availability, we ask that you contact your local Toyota Centre. Vehicle body colours may differ slightly from the printed images in this brochure.

Quoted mpg and CO_2: Figures are provided for comparability purposes; only compare fuel consumption and CO_2 figures with other cars tested to the same technical procedures. These figures may not reflect real-life driving results. Fuel consumption and CO_2 produced varies significantly depending on a number of factors, including the accessories fitted (post-registration), driving style, conditions, speed and vehicle load.

All models and grades are certified according to the World Harmonised Light Vehicle Test Procedure (WLTP), which replaces the New European Driving Cycle test procedure (NEDC).

All CO_2 figures quoted are NEDC equivalent. This means the CO_2 figures are based on the new WLTP test procedure but calculated (using a standard European calculation method) to allow comparison with the NEDC test procedure. The NEDC equivalent figures will be used to calculate vehicle tax on first registration. All mpg figures quoted are full WLTP figures.

More information can be found by visiting: www.vehicle-certification-agency.gov.uk/fcb/wltp.asp

The official CO_2 figures for vehicles changed as from 6 April 2020, due to a change in the official method of calculation. CO_2 figures are used in the calculation of Vehicle Excise Duty (car tax) for new cars during their first year of registration. As a result, all CO_2 figures, car tax and recommended 'on the road' prices for new vehicles are subject to change for vehicles registered after 6 April 2020. Please contact your local Toyota Centre for further information.
