CLEAN CUT DETAILS TAKE CENTRE STAGE

You want the most out of every moment: the way you live, the way you work and the way you play. That's why we designed the Toyota C-HR cabin to be enjoyed. With seats that hug and strong diamond patterns that lend prestige, both comfort and style are catered for. Lining the interior, soft-touch surfaces are paired with contrasting gloss black inserts to create a contemporary feel. Then as day fades, the mood changes, and you are bathed in the soft blue glow of the ambient lighting.

576 WATTS OF PASSION IMMERSE YOURSELF IN CRISP TREBLE AND RICH BASS

You move to a different beat. We wouldn't want it any other way. That's why the bespoke JBL® audio system* gives you a clarity you've only experienced live. Connect your smartphone and stream your favourite tracks for an experience that puts the artist in your car.

Life has a soundtrack, play it loud.

YOU DO LIFE, WE DO SAFETY

Take it easy. Toyota C-HR has some of the most sophisticated safety technologies in the world. Stay focused and in the moment while we take care of keeping you and your passengers safe.

Blind Spot Monitor (BSM)*

Alerts the driver to any vehicles that might be missed in the side view mirrors.

Rear Cross Traffic Alert (RCTA-B)* (with Automatic Braking)

When you back out of a parking space, rear-mounted sensors identify vehicles approaching from the left or right, warning you and then applying the brakes to avoid a collision.

Simple Intelligent Parking Assist (S-IPA)§

The system helps you to steer your Toyota smoothly into a parking space or garage. All you do is provide the necessary acceleration and braking while the car parks itself.

Intelligent Clearance Sonar with Automatic Braking¶

Using an array of sensors to create a 360° picture, the system detects objects around the vehicle, and provides an audible warning before applying the brakes to avoid a collision.

* Standard on Design, Excel and GR SPORT

§ Standard on Design, Excel and GR SPORT.

¶ Standard on Design, Excel and GR SPORT

All active safety technologies are intended to be back-up systems only and are not a substitute for safe and attentive driving. The functionality of these systems may be impacted by driving conditions. Further information is available from your local Toyota Centre.

OWNING YOUR TOYOTA C-HR

Servicing your Toyota

Toyota Service Pricing means you will be sure to know the cost of your service up front. Expertly trained technicians using only genuine Toyota parts will carry out your service at one of over 200 Authorised Toyota Service Centres. The technicians will advise you on the correct service for your car based on the car's age, mileage and service history.

For more information visit [toyota.co.uk/owners/servicing-and-aftercare/service-mot-maintenance](https://www.toyota.co.uk/owners/servicing-and-aftercare/service-mot-maintenance)

Service Plans

Inflation-proof pricing with a monthly or one-off payment plan means one less thing to worry about. With Toyota Service Plans the price you're quoted is guaranteed for the duration of your plan. The service, parts and labour are all paid for either in monthly instalments or as a one-off payment at the beginning of your plan.

TOYOTA 2050 ENVIRONMENTAL CHALLENGE & EFFICIENCY AND LOW EMISSIONS.

Announced in 2015, our global Environmental Challenge 2050 comprises of six challenges. They cover every aspect of our business, our exploration of new products and technologies, and our role as an enabler for individuals and communities to learn about and improve the natural world around them.

CHALLENGE 1

NEW VEHICLE ZERO CO₂ EMISSIONS

By 2050, we want to reduce the CO₂ emissions from our vehicles by 90% compared to our 2010 levels. To achieve this, we will promote the development of new vehicles with low or zero carbon emissions, and do everything we can to increase the uptake of these vehicles.

CHALLENGE 2

LIFE CYCLE ZERO CO₂ EMISSIONS

We are working to create more environmentally friendly designs – and then analysing and refining them to ensure the lowest possible environmental impact throughout the vehicle's entire life cycle*.

CHALLENGE 3

PLANT ZERO CO₂ EMISSIONS

To reduce carbon emissions at our manufacturing plants, we are focusing on improving the technologies we use and switching to alternative power sources. We are committed to making our facilities more energy-efficient and adopting renewable energy sources such as solar and wind, as well as low-carbon power such as hydrogen energy.

CHALLENGE 4

MINIMISING AND OPTIMISING WATER USAGE

To minimise water usage, we have started to collect rainwater at our manufacturing plants. We have also developed purification methods so that the water we do use can either be used again or returned safely into the local supply.

CHALLENGE 5

ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

We've been working on the challenge of resource recycling for 40 years, with the result that 95% of every Toyota C-HR is now reusable and recoverable. In addition, we offer new and innovative ways of returning your vehicle when it eventually reaches 'the end of the road'. We are pursuing full life cycle management for battery recovery & reuse and remanufacturing green parts.

CHALLENGE 6

ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

To preserve and enhance our co-existence with the natural world, we are organising reforestation and tree planting, green urban schemes and other environmental initiatives, both at our own sites and in the wider world. Our aim is to establish a society where people and nature coexist in harmony.

For more information regarding Toyota Environmental Challenge please visit: toyota.co.uk/world-of-toyota/environment/environmental-challenge-2050 or contact your local Toyota retailer.

* Toyota's LCA methodology, which is applied to our passenger vehicles, was reviewed and approved by TÜV Rheinland and has been certified to comply with ISO14040/14044 standards.

The Toyota C-HR is built to the highest quality standards at TMMT in Sakarya, Turkey.

INSPIRING THE WORLD TO MOVE

Over 85 years of innovation have brought us our greatest mission yet: giving the freedom of movement to humankind.

That's why Toyota is the Worldwide Official Mobility Partner of the International Olympic Committee and the International Paralympic Committee and proud partner of Team GB and Paralympics GB.

We are committed to making movement better for everyone, whether that be across a country, a city or across a room, because when you are free to move, anything is possible.

While every effort is made to reproduce accurate information, we reserve the right to change specifications, equipment and availability without prior notice. This brochure cannot be regarded as infallible (some of the vehicles shown may not be to exact UK specification), and as such does not constitute an offer for sale of any particular vehicle or specification. For the latest specification and availability, we ask that you contact your local Toyota Centre. Vehicle body colours may differ slightly from the printed images in this brochure.

Quoted mpg and CO₂: Figures are provided for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real-life driving results. Fuel consumption and CO₂ produced varies significantly depending on a number of factors, including the accessories fitted (post-registration), driving style, conditions, speed and vehicle load.

All models and grades are certified according to the World Harmonised Light Vehicle Test Procedure (WLTP). All mpg and CO₂ figures quoted are full WLTP figures.

The official CO₂ figures for vehicles changed as from 6 April 2020, due to a change in the official method of calculation. CO₂ figures are used in the calculation of Vehicle Excise Duty (car tax) for new cars during their first year of registration. As a result, all CO₂ figures, car tax and 'on the road' prices for new vehicles, which were provided or displayed prior to 6 April 2020, may now have changed for vehicles which were not registered before that date. These dates may change, please visit www.vehicle-certification-agency.gov.uk/fcb/wltp.asp for the latest information.

Please contact your local Toyota Centre for further information.
