

TOYOTA PROACE VERSO ELECTRIC

COUNTS

Stylish, versatile and great to drive, the Proace Verso Electric is the ultimate premium people carrier. Offering luxurious transport for commercial passengers and adventurous families alike, its comfort and seamless connectivity make every trip a pleasure.

EVERY

SIT BACK AND RELAX

With its lounge-like space, soothing ergonomics and thoughtful attention to detail, the Proace Verso Electric premium interior enhances every moment. Whether you're behind the wheel or relaxing as a passenger, you'll appreciate the hushed noise levels, heated seats and individual armrests for the driver and front passenger. And with seating for seven, eight or nine, airline-style individual tables and a stunning panoramic glass roof*, the Proace Verso Electric is as much about enjoying the journey as the destination.

* Grade specific - please see grade pages.

VERSATILITY

A SPACE THAT ADAPTS TO YOU

The interior space and intelligent storage solutions, let you live life spontaneously. Designed to accommodate a combination of passengers and cargo, and to cater for even the most active lifestyles, the interior is easily reconfigured to suit your needs. The seats split, fold, and even slide on rails, for complete flexibility regardless of who's along for the ride.

FULLY FLEXIBLE SEATING

Supremely accommodating, the Proace Verso Electric's adaptability extends to ISOFIX fixings throughout the cabin.

CHANGE IT, THEN CHANGE IT AGAIN

With its vast interior space and intelligent modularity, the effortlessly adaptable Proace Verso Electric makes life easier. Bikes, bags, surf gear and camping equipment – there's a place for it all in this impressively versatile people carrier. The front passenger seat folds away to accommodate long items like paddle boards, and you'll also find handy 5.9 l storage compartments in the front door bins – perfect for water bottles and personal items.

CARRY EVERYTHING

With folding seats throughout, easy loading and space enough for loads 3.5 metres long, you really can take it all.

DETAILS THAT MAKE A DIFFERENCE

Combining thoughtful details, a high level of standard equipment and innovative technology, the Proace Verso Electric makes everything easier. Interior access is effortless thanks to motorised sliding doors* and wide door openings – simply pull the handle or use the buttons on the key fob, dashboard and B-pillar. And for the ultimate in convenience upgrade to hands-free sliding doors, which operate by simply waving your foot under the bumper.

CONVENIENCE YOU'LL APPRECIATE

Need to grab something from the luggage compartment? The opening tailgate window* offers quick access without needing to lift the tailgate.

EASY-OPEN DOORS

Featuring wide-opening sliding doors and a low floor height, for easy access to every seat in the cabin.

* Grade specific - please see grade pages.

CONVENIENCE

POWER YOUR LIFESTYLE

Smooth and effortless to drive, with a one-tonne towing capacity and up to 214 miles of driving range, take every adventure in your stride with the Proace Verso Electric.

ELECTRIC MOTOR 75 kWh A/T

Battery energy 75 kWh
Pure Electric Range* up to 214 miles
Battery charging time approx 45 mins (0-80%)

* Combined cycle. A/T = Automatic transmission

ELECTRIC MADE EASY

The Proace Verso Electric has the energy to keep you moving. With a clear and easy to read power display and quick, convenient charging via a domestic socket, home charger or public rapid charger, keeping the battery topped up couldn't be easier. The Proace Verso Electric can be charged from 20% to 80% in as little as 30 minutes, and a status indicator shows the battery status as you charge. Relaxing to own and easy to live with, driving electric has never been so appealing.

A MODE FOR EVERY DRIVE

The drive mode switch lets you match the electric powertrain to your needs. Choose Power for strong acceleration, Normal for everyday use or range-boosting Eco.

ELECTRIC

Image is not UK specification.

CONNECTED AND IN CHARGE

With its seamless connectivity, the Proace Verso Electric takes the guesswork out of electric driving. Crucial EV data, including remaining driving range, power consumption and battery charge level, is always displayed on the multimedia screen and the driver's Combimeter. And should you run low on charge, the navigation system shows all the public charging options in your area, so you can quickly and easily top up on the move.

FIND CHARGERS NEAR YOU

The multimedia screen shows a range checker, a battery usage monitor and nearby charging stations. The powertrain also pre-heats the battery for faster, more efficient charging.

EV TECHNOLOGY

INTUITIVE TECHNOLOGY

Rich in functionality and easy to use, the Proace Verso Electric connected technology elevates every drive. With accurate voice activation and a responsive 10" multimedia touchscreen, making calls, playing your favourite music and setting a navigation destination couldn't be easier. Keep your devices fully charged with the two handy USB-C ports. And on the move the digital cabin, with its Digital Instrument Cluster, displays key driving information at a glance, putting you confidently in control.

YOUR PHONE ON THE MOVE

Providing easy access to your smartphone's apps and features, upgraded Toyota Smart Connect with wireless Apple CarPlay and Android Auto™ compatibility mirrors your phone on the multimedia touchscreen.

Apple CarPlay is a trademark of Apple Inc.

Toyota Safety Sense WITH YOU FOR A SAFER JOURNEY

For safety functions, Proace Verso Electric is built with Toyota Safety Sense including the latest generation of Toyota safety technologies as well as the possibility to update its features over the air.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION

Pre-Collision System can detect and help you avoid collisions with other vehicles, pedestrians, cyclists and motorbikes. It works by alerting the driver with audio and visual warnings and brake assistance. If the driver doesn't manage to brake in time the brakes automatically engage to prevent or mitigate a collision. Additionally, Intersection Collision Avoidance Support and Emergency Steering Assist support in the day when turning at junctions and making evasive manoeuvres.

INTELLIGENT SPEED ASSIST (ISA)

The system recognises new speed limits along the driving route, suggests changes to cruising speed and automatically limits the speed of the vehicle as necessary.

ADAPTIVE CRUISE CONTROL*

Toyota safety technologies's Adaptive Cruise Control keeps a minimum preset distance from the vehicle in front. If this distance falls, the system reduces the speed. If the distance increases again, it will gradually accelerate until the vehicle returns to your chosen cruising speed.

* Grade specific - please see grade pages.

LANE KEEP ASSIST

Lane Keep Assist system uses either the lane markings on the road ahead or the driving path of the vehicle in front to estimate its position on the road. If the vehicle begins to drift from the centre of the lane unintentionally, steering assist is applied to correct its course.

TYRE PRESSURE MONITORING SYSTEM (TPMS)

Sensors continually monitor the air pressure in each tyre - including the spare wheel. If any tyre experiences a drop in pressure, the TFT dashboard display indicates which wheel needs attention. The result is better fuel economy, an added sense of security when driving and reduced tyre wear and tear.

Image is not UK specification.

INTELLIGENT PROTECTION

A protective halo around you and your van, Toyota's range of intelligent protection systems works to keep you safe on the move. It's easy to miss important traffic signs during a busy day. Road Sign Assist displays important speed limit changes or the introduction of overtaking restrictions on the driver's display, helping you drive accordingly. Automatic Electronic Braking System (AEBS) monitors the distance between you and vehicles or obstacles up ahead, intervening to slow you down if that gap becomes too small.

AUTOMATIC HIGH BEAM (AHB)

Automatic High Beam is designed to optimise visibility during night driving for all road users. A camera located by the rear-view mirror detects the lights of oncoming vehicles whilst also monitoring the brightness of streetlights. It switches automatically between high and low beam, allowing the driver to concentrate fully on the road, safely and conveniently.

AUTOMATIC ELECTRONIC BRAKING SYSTEM (AEBS)

Sensors continually measure the distance between the vehicle and obstacles ahead. If the distance limit is exceeded the vehicle will apply AEBS to will slow down as much as possible to avoid a collision or minimise any impact.

ROAD SIGN ASSIST

Monitors traffic signs and shows this essential information in clear view on the cockpit display. This includes current speed limits among others. Now the system also warns you if you are about to enter a one-way street the wrong way, and tells you of approaching stop signs and overtaking restrictions.

DRIVER ATTENTION ALERT

This function monitors the vehicle's position within the lane and the driver's steering operations in order to detect vehicle sway, which tends to occur when the driver's ability to concentrate on driving deteriorates due to factors such as drowsiness, inattention or distraction. The driver will be alerted prior to instances such as deviating from the road.

BLIND SPOT MONITOR (BSM)*

This allows you to manoeuvre more safely during lane changes. If the rear-mounted radar sensors detect a vehicle in your side or rear blind spot, a warning indicator illuminates on the appropriate side mirror. If you indicate to change lanes and a vehicle is in your blind spot, the warning indicators will flash.

Toyota accessories TAILORED TO YOUR LIFESTYLE

The Proace Verso Electric is just the beginning. Toyota's extensive range of genuine accessories is ready to help you go further. Anything is possible, from roof bars to towing hitches, ski boxes to bike racks. Thoughtfully designed and robustly engineered, these personalisation options transform the Proace Verso Electric into your own.

Transport Pack

The Toyota aluminium roof rack is tailor-made to add an extra dimension of carrying capacity to your vehicle. It is easy to install, fully lockable and has a smooth aerodynamic profile that minimises wind noise. Importantly, the rack features a quick attachment concept that enables you to combine it with a superb range of optional attachments for specialised transport purposes.

1. Toyota Roof Box XL

This streamlined storage box adds space for your luggage, or anything else you might want to take with you on holiday. With a key that can't be removed until all locking points are closed and easy access from either side, it's safe and convenient too.

2. Detachable Towing Hitch

The detachable towing hitch is especially designed so that you can easily attach the tow ball whenever you need a towing capability and remove it again when you don't.

Protection Pack

Rear Bumper Protection Plate

Designed in stainless steel to protect the rear bumper paintwork against scratching when sliding heavy or awkward loads into the boot. It is also particularly effective for guarding the paintwork of the boot area.

Personal touches

Toyota accessories give you choices for customising your Proace Verso Electric. There are options for transport, protection and security to suit a wide range of business and family needs.

Horizontal Cargo Net

Strong, woven, black nylon net for holding items securely in your car's boot area. The net fixes neatly on to pre-fitted hooks. The aluminium construction of the roof platform provides strength and long-lasting durability for carrying many different types of loads.

Rear Bumper Protection Plate

Designed in stainless steel to protect the rear bumper paintwork against scratching when sliding heavy or awkward loads into the boot. It is also particularly effective for guarding the paintwork of the boot area.

Textile Floor Mats

Genuine textile floor mats are available in either velour or needle felt material. They are tough, practical and easy to clean. The driver's mat has a special fixing to prevent slippage during use.

Toyota Environmental Challenge 2050 OUR COMMITMENT

Announced in 2015, our global Environmental Challenge 2050 comprises of six challenges. They cover every aspect of our business, our exploration of new products and technologies, and our role as an enabler for individuals and communities to learn about and improve the natural world around them.

1. NEW VEHICLE – ZERO CO₂ EMISSIONS

By 2050, we want to reduce the CO₂ emissions from our vehicles by 90% compared to our 2010 levels. To achieve this, we will promote the development of new vehicles with low or zero carbon emissions, and do everything we can to increase the uptake of these vehicles.

2. LIFE CYCLE – ZERO CO₂ EMISSIONS

We are working to create more environmentally friendly designs – and then analysing and refining them to ensure the lowest possible environmental impact throughout the vehicle's entire life cycle*.

3. PLANT – ZERO CO₂ EMISSIONS

To reduce carbon emissions at our manufacturing plants, we are focusing on improving the technologies we use and switching to alternative power sources. We are committed to making our facilities more energy-efficient and adopting renewable energy sources such as solar and wind, as well as low-carbon power such as hydrogen energy.

4. MINIMISING AND OPTIMISING WATER USAGE

To minimise water usage, we have started to collect rainwater at our manufacturing plants. We have also developed purification methods so that the water we do use can either be used again or returned safely into the local supply.

5. ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

We've been working on the challenge of resource recycling for 40 years, with the result that 95% of every Toyota Proace Verso Electric is now reusable and recoverable. In addition, we offer new and innovative ways of returning your vehicle when it eventually reaches 'the end of the road'.

6. ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

To preserve and enhance our co-existence with the natural world, we are organising reforestation and tree planting, green urban schemes and other environmental initiatives, both at our own sites and in the wider world. Our aim is to establish a society where people and nature coexist in harmony.

For more information regarding Toyota Environmental Challenge please visit: toyota.co.uk/world-of-toyota/environment/environmental-challenge-2050 or contact your local Toyota dealer.

* Toyota's LCA methodology, which is applied to our passenger vehicles, was reviewed and approved by TÜV Rheinland and has been certified to comply with ISO14040/14044 standards.

OWNING YOUR PROACE VERSO ELECTRIC

Servicing your Toyota

Toyota Service Pricing means you will be sure to know the cost of your service up front. Expertly trained technicians using only genuine Toyota parts will carry out your service at one of over 200 Authorised Toyota Service Centres. The technicians will advise you on the correct service for your car based on the car's age, mileage and service history.

For more information visit toyota.co.uk/owners/servicing-and-aftercare/service-mot-maintenance

Service Plans

Inflation-proof pricing with a monthly or one-off payment plan means one less thing to worry about. With Toyota Service Plans the price you're quoted is guaranteed for the duration of your plan. The service, parts and labour are all paid for either in monthly instalments or as a one-off payment at the beginning of your plan.

Toyota Price Repairs

We offer transparent prices on a number of repair items for your Toyota giving you peace of mind when it comes to managing costs. Also don't forget we only use genuine Toyota parts, all of which come with at least 12 months' warranty (some even offer unlimited mileage warranties); and your car will always be dealt with by a trained Toyota technician.

MyToyota

Whether you're a long-term owner or have recently taken delivery of a new Toyota, there are lots of reasons to join **MyToyota**. Packed with time-saving and convenient features, **MyToyota** ensures everything you need to manage your vehicle ownership is in one place. You'll also gain access to **My Rewards** where you can enjoy great offers and discounts from big brands on everything from family days out to pampering as well as everyday deals.

For more information visit toyota.co.uk/mytoyota or download the **MyToyota** app now available on iTunes® and Android.

Toyota Accessories

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor-made for your Toyota, they fit perfectly and add a personal touch of style, comfort and practicality. Also, because they've been tested under the most severe conditions, you can have complete confidence in their reliability and durability.

Toyota Roadside Assistance

When you buy a new Proace Verso Electric you will automatically receive 12 months' AA Roadside Assistance in the UK and Europe, free of charge. After the first year, you can renew this cover by calling 0344 701 6201 or visiting toyota.co.uk/owners/roadside-assistance/

Get up to 10 years/100,000 miles Toyota Warranty*

Every new Toyota comes with a 3 year manufacturer warranty followed by a 12 months / 10,000 miles additional warranty, with every qualifying service.

Corrosion Cover

The 12-year unlimited mileage cover protects against rust perforation affecting sheet metal body panels as a result of a manufacturing fault. This warranty can also be transferred to any future owner throughout the 12-year period.

Rust and Paint Cover

The 3-year unlimited mileage cover protects against defects and surface rust as a result of a manufacturing fault.

Toyota Business Centre

Our Toyota Business Centre network promise you same-day access to a business manager or dedicated sales executive. With business offers and interactive wholelife cost modelling tools which consider emissions, fuel economy,

servicing, insurance and residual value data, our advisers can accurately compare tax costs against any competitor. Whenever servicing is due, we can offer fixed-price servicing, free local vehicle collection and delivery (with wash and vac).

Special offers, fixed-price fleet servicing, specialist fleet insurance, business daily hire, Toyota Fleet Financial Services, extended test drives and a dedicated Business Centre Network are just some of the services business customers can expect from Toyota.
