

Toyota (GB) PLC – Environmental Policy

Toyota (GB) plc (“the Company”) is Toyota’s national sales and marketing company for the United Kingdom, the Channel Isles, the Isle of Man and Malta. Together with its subsidiaries, it is committed to complying with all applicable legal and compliance obligations regarding the protection of the environment. Insofar as they relate to the Company’s activities, the Company applies the following policies in giving effect to these commitments:

- (1) Toyota’s Guiding Principles;
- (2) Toyota’s Corporate Social Responsibility policy “Contribution towards Sustainable Development”;
- (3) Toyota’s Earth Charter;
- (4) Toyota Environmental Challenge 2050; and TGB’s Five Year Environmental Action Plan 2020.

Copies of documents can be found at <http://www.toyota-global.com/sustainability/environment/>

The Company also applies in so far as they are relevant to its activities the environmental policies of its holding company, Toyota Motor Europe NV/SA.

Environmental pledge

The Company pledges, so far as reasonably practical:

- (a) to support in full the reduction to zero CO2 emissions produced throughout the entire life cycle of their cars;
- (b) to reduce consumption of raw materials (including energy) and to minimise and optimise water usage, and fully manage the prevention and disposal of any pollutants throughout all TGB sites;
- (c) to support in full the development of a recycling-based society by minimising the disposal of waste, which is not recycled, and to encourage its retail network and other stakeholders to do likewise.
- (d) to contribute to the protection and enhancement of biodiversity at TGB sites.

Continuous improvement

Consistent with the Toyota Way management philosophy and its ISO 14001: 2015 certification, the Company aims to achieve continuous improvement in the management of its environmental performance, opportunities and risk exposures to through a combination of:

- (a) research, planning, and annual target setting;
- (b) the use of energy saving and pollution limiting technologies; and
- (c) monitoring and measuring against KPIs as outlined in TGB’s 5 Year Environmental Action Plan with the commitment of top management, and reviewing procedures against policy objectives and legal requirements;

Communication Awareness

The Company aims to raise the environmental awareness of its own personnel, its retail network, customers and other stakeholders through the provision of information about the environmental impact of its products and activities and best practices. This will help to foster to an environmental mind set. This document will be reviewed every two years, or in the event of any necessary changes.

The ultimate aim of the Company is to reach environmental leadership through the whole vehicle life cycle.
