All mpg and CO₂ emissions figures stated in this brochure are sourced from official EU regulated tests. These are provided for comparability purposes and may not reflect your actual driving experience. Fuel consumption varies significantly depending on a number of factors, including driving style, conditions, speed and vehicle weight.

On 1st September 2017, a new more realistic test for measuring fuel consumption and CO₂ was introduced called World Harmonised Light Vehicle Test Procedure (WLTP). From 1st September 2018, WLTP will fully replace the New European Driving Cycle (NEDC) which is the current test procedure. Due to more realistic test conditions, the fuel consumption and CO₂ emissions measured under the WLTP are in many cases higher than those measured under NEDC.

All mpg and CO₂ figures quoted are NEDC 'correlated'. This means the mpg and CO₂ figures are based on the new WLTP test procedure but calculated (using a standard European calculation method) to allow comparison with the current NEDC test cycle.

Please note: All exhaust emission figures shown are full WLTP figures. More information can be found by visiting <https://www.toyota.co.uk/world-of-toyota/environment/wltp>.

This Prices, Specifications and Equipment document should be read in conjunction with the AYGO brochure (GBNGV-0718B-AY).

All passenger car prices shown are recommended retail and are applicable to vehicles sold for permanent use in the United Kingdom. List prices include VAT, delivery charge and number plate allowance. On the road prices include 12 months' Vehicle Excise Duty and Vehicle First Registration Fee (currently £55). Please see your local Toyota Centre for further details on the full range of Vehicles and Optional Extras available. For full description and illustration of exterior colours and internal trims, please consult your local Toyota Centre.

All mpg and CO₂ emissions figures stated in this brochure are sourced from official EU regulated tests. These are provided for comparability purposes and may not reflect your actual driving experience. Fuel consumption varies significantly depending on a number of factors, including driving style, conditions, speed and vehicle weight.

On 1st September 2017, a new more realistic test for measuring fuel consumption and CO₂ was introduced called World Harmonised Light Vehicle Test Procedure (WLTP). From 1st September 2018, WLTP will fully replace the New European Driving Cycle (NEDC) which is the current test procedure. Due to more realistic test conditions, the fuel consumption and CO₂ emissions measured under the WLTP are in many cases higher than those measured under NEDC.

All mpg and CO₂ figures quoted are NEDC 'correlated'. This means the mpg and CO₂ figures are based on the new WLTP test procedure but calculated (using a standard European calculation method) to allow comparison with the current NEDC test cycle.

Please note: All exhaust emissions figures shown are full WLTP figures. More information can be found by visiting <https://www.toyota.co.uk/world-of-toyota/environment/wltp>.

5 Year Toyota warranty disclaimer: 5 years or 100,000 miles from new whichever comes first, with no mileage limitations for the first year. This warranty covers any mechanical fault caused by a manufacturing defect only.
