Take it easy. Toyota C-HR has some of the most sophisticated safety technologies in the world. Stay focused and in the moment while we take care of keeping you and your passengers safe.

**Blind Spot Monitor (BSM)**
Alerts the driver to any vehicles that might be missed in the side view mirrors.

**Rear Cross Traffic Alert (RCTA-B)**
(with Automatic Braking)
When you back out of a parking space, rear-mounted sensors identify vehicles approaching from the left or right, warning you and then applying the brakes to avoid a collision.

**Simple Intelligent Parking Assist**
(with Automatic Braking)
The system helps you to steer your Toyota smoothly into a parking space or garage. All you do is provide the necessary acceleration and braking while the car parks itself.

**Intelligent Clearance Sonar (ICS)**
Using an array of sensors to create a 360° picture, the system detects objects around the vehicle, and provides an audible warning before applying the brakes to avoid a collision.

All active safety technologies are intended to be back-up systems only and are not a substitute for safe and attentive driving. The functionality of these systems may be impacted by driving conditions. Further information is available from your local Toyota Centre.

Quoted mpg and CO₂: Figures are provided for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real-life driving results. Fuel consumption and CO₂ produced varies significantly depending on a number of factors, including the accessories fitted (post-registration), driving style, conditions, speed and vehicle load.

All models and grades are certified according to the World Harmonised Light Vehicle Test Procedure (WLTP). All mpg and CO₂ figures quoted are full WLTP figures.

The official CO₂ figures for vehicles changed as from 1 April 2020, due to a change in the official method of calculation. CO₂ figures are used in the calculation of Vehicle Excise Duty (car tax) for new cars during their first year of registration. As a result, all CO₂ figures, car tax and ‘on the road’ prices for new vehicles, which were provided or displayed prior to 1 April 2020, may now have changed for vehicles which were not registered before that date. These dates may change, please visit www.vehicle-certification-agency.gov.uk/fcb/wltp.asp for the latest information.
